Personal Details

Date of Birth: 2nd July, 2003
Languages Known: English, Hindi

Profile Summary

- Highly motivated and Entry-level Full Stack Developer with 1 year of experience specializing in Node.js and NoSQL databases, complemented by over 2 years of extensive experience in React.js. Proficient in developing robust and scalable web applications using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Developed and maintained web applications using React.js, ensuring responsive and user-friendly interfaces.
- Implemented backend services and RESTful APIs using Node.js and Express.js, integrating with MongoDB for data management.
- Integrated MongoDB with back-end applications via Mongoose.
- Improved application performance by optimizing code and reducing load times.
